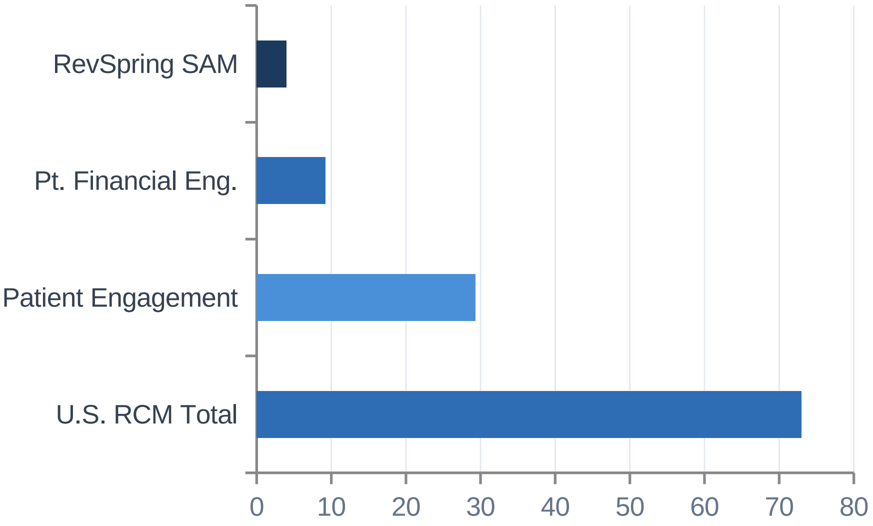
Slide 5 | Market Opportunity

SO WHAT *The U.S. patient financial engagement market is $9.2B growing at 12.7% CAGR — and regulatory mandates are driving demand pull, not just growth.*

ADDRESSABLE MARKET



CAGR SUMMARY

U.S. RCM Total	11.6% CAGR	2026–2035
Pt. Engagement	12.0% CAGR	2025–2030
Pt. Financial Eng.	12.7% CAGR	2024–2028
RevSpring SAM	~11.0% CAGR	Morsebridge est.

KEY GROWTH DRIVERS

01 Regulatory Demand Pull

Price Transparency EO (Feb 2025) + CMS Final Rule (Nov 2025) mandate RevSpring's PreService workflows. Compliance is non-optional for health systems.

02 Rising Patient Costs

>55% of commercially insured Americans on HDHPs; avg. out-of-pocket >$1,700/episode. Patient collections are a top-3 provider priority.

03 Outsourcing Acceleration

Post-COVID staffing constraints are driving providers to outsource RCM workflows. RevSpring's ARM and digital tools are direct beneficiaries.

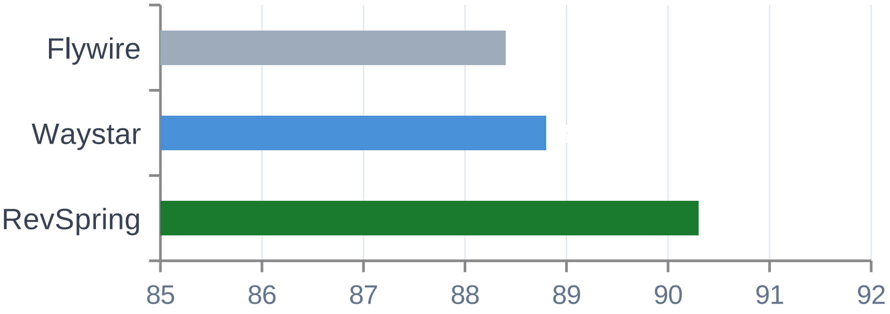
04 Cross-Sell Runway

$45M+ incremental ARR identified within the existing 2,000+ client base. Kyruus Health + TrustCommerce extend SAM further upstream and downstream.

Slide 6 | Competitive Position

SO WHAT *RevSpring is the #1 KLAS vendor in Patient Financial Engagement for the 2nd consecutive year — and its analytics moat is the least replicable element in the competitive set.*

KLAS PATIENT FINANCIAL ENGAGEMENT — 2026



100% of PersonaPay customers said they would buy again (KLAS, 2026)

COMPETITIVE BENCHMARKING

COMPETITIVE MOAT ELEMENTS

Proprietary Consumer DB	300M+ profiles	STRONG
EHR Integrations	85% hospital coverage	STRONG
Compliance Infrastructure	PCI Level 1 + HIPAA	STRONG
Switching Costs	3-5yr multi-product lock-in	MODERATE
Payment Processing Scale	$8B+ annual volume	MODERATE

POST-CIM PLATFORM EXTENSIONS (UNDER FRAZIER)

Kyruus Health (Q4 2025) Provider search & scheduling — extends platform upstream into care access layer; no competitor matches this positioning at scale

TrustCommerce (Feb 2026) Integrated payment gateway — adds transaction-layer revenue; RevSpring now controls end-to-end financial journey from engagement to settlement

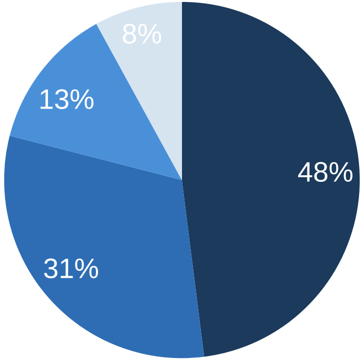
Slide 7 | Customer Analysis

SO WHAT *NRR of ~108% and gross retention of ~94% confirm a sticky, recurring revenue base — but the top-20 cohort at 38% of revenue requires active renewal management.*

CUSTOMER SEGMENTATION BY REVENUE



REVENUE QUALITY METRICS

~108% — **Net Revenue Retention**
Above 100% threshold — upsell and cross-sell outpaces churn

~94% — **Gross Revenue Retention**
Adequate; concentrated in smaller community hospital accounts

>80% — **Recurring Revenue**
SaaS + transaction-based; multi-year auto-renewing contracts

3–5 — **Avg. Contract Length**
Auto-renewal standard; estimated $45M+ cross-sell ARR

REVENUE CONCENTRATION

Cohort	% of Revenue	Risk Assessment	Mitigation
Top Client (Single)	< 6%	LOW	No single client is material; high switching cost further reduces risk
Top 20 Clients	~38%	MODERATE	Multi-year auto-renewing contracts; retention programs in place for top 50 accounts
Large IDNs (segment)	48%	MONITOR	Concentrated renewal events; 15 enterprise account managers cover top 50 clients

DD FLAGS RAISED

MATERIAL Print & Mail revenue not disclosed by product line — required to model EBITDA margin expansion under bear case.

MATERIAL Win/loss data vs. Epic MyChart and Cedar not disclosed — competitive encroachment pace unvalidatable without it.

MONITOR CIM TAM definition needs reconciliation vs. third-party market sizing (definitional gap, not a misstatement).

LOW International expansion cited as growth opportunity but unquantified; excluded from base case return model.

RECOMMENDED NEXT STEPS: (1) Request revenue bridge by product line FY2021–24 | (2) Request win/loss analysis | (3) Obtain Kyruus + TrustCommerce post-close financials | (4) Initiate Financial DD
